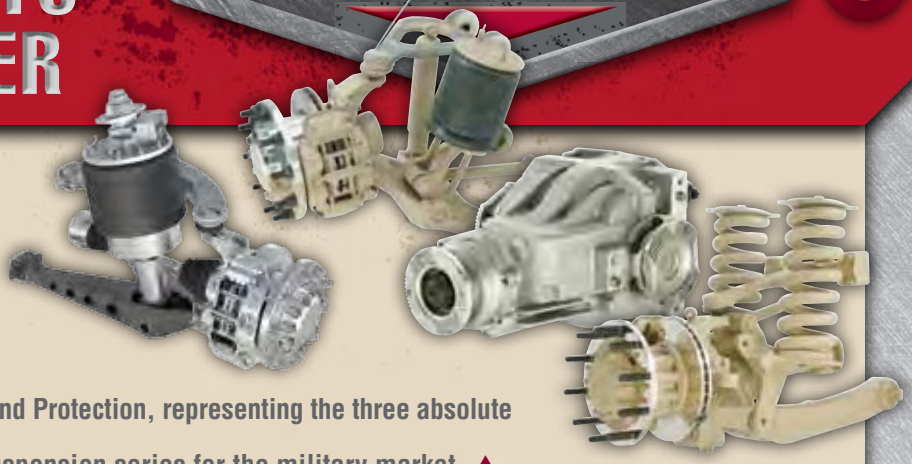
SERIES 30

PROTEC™

DELIVERING PERFORMANCE TO THE WARFIGHTER



HIGH-MOBILITY INDEPENDENT SUSPENSION FOR SEVERE OFF-ROAD APPLICATIONS

The **IRON TRIANGLE** of Payload, Performance and Protection, representing the three absolute must-haves for a high-mobility independent suspension series for the military market. ▲ Only one product family builds a foundation of strength under every corner of the Iron Triangle – the **PROTEC SERIES** of High Mobility Independent Suspensions (HMIS), built for tactical wheeled military vehicles and armored personnel carriers, as well as specialty and off-highway applications. ▲ Customers demanded superior force protection, unmatched mobility and unparalleled ride quality, all in a weight-efficient package. ▲ **MERITOR LISTENED**. ▲ The results? The **PROTEC HMIS SERIES 30** for applications requiring GAWRs up to 14,000 lbs., the **PROTEC HMIS SERIES 30** for GAWRs up to 23,000 lbs., and the **PROTEC HMIS SERIES 50** GAWRs up to 29,000 lbs.

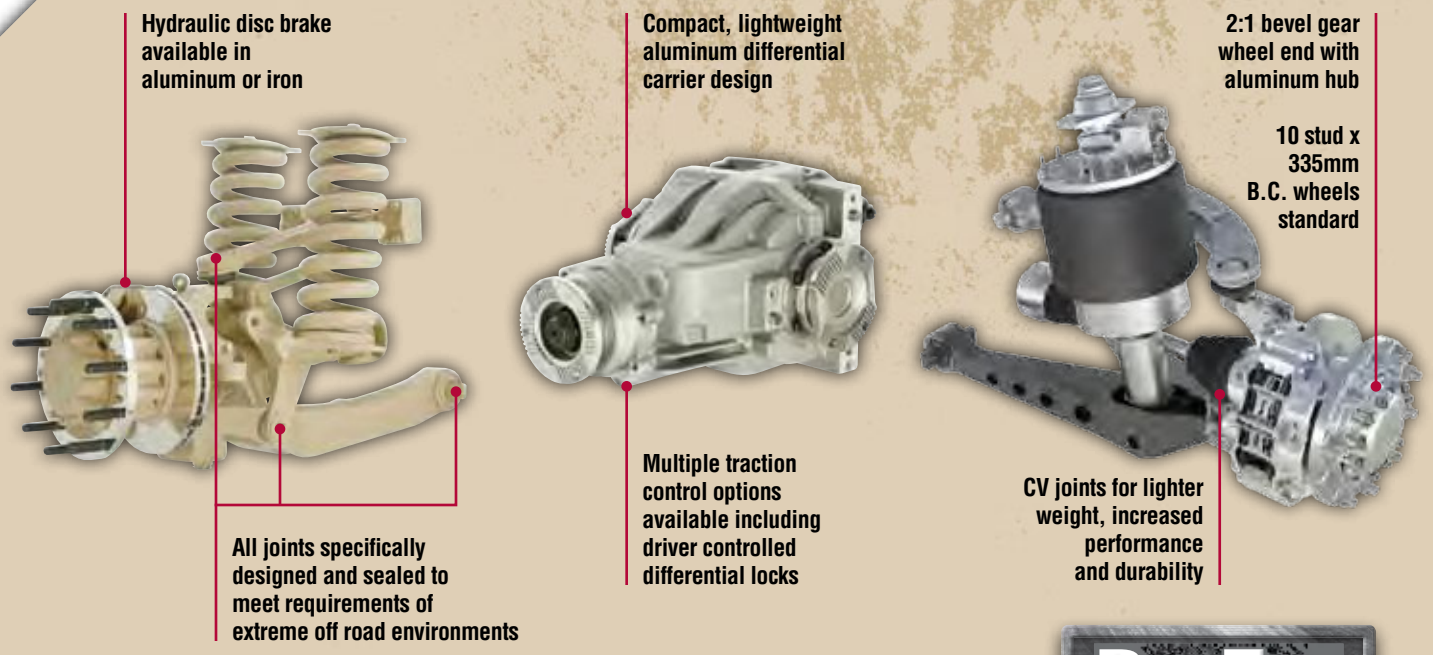
PROTECTION AND PERFORMANCE FOR THOSE WHO PROTECT US

FEATURES AND BENEFITS

- Blast-mitigating design deflects force away from the vehicle undercarriage
- Weight-efficient, payload-maximizing design of the ProTec HMIS line increases payload capacity to allow for added armor protection
- A tight turning radius — up to 35 degrees — delivers maximum maneuverability demanded in extreme combat environments
- Total wheel travel clearance up to 21 inches results in outstanding off-road mobility
- Versatile Meritor amboid gearing is sized to fit any application requirements
- Optional limited slip differential, no-spin differential and driver-controlled differential lock further enhance performance
- Meritor's global aftermarket support system stands behind every Meritor military suspension sold
- A combination of lightweight materials, multi-functional architecture, and billions of miles of military vehicle experience provide the ultimate balance in payload, performance and protection for medium tactical and armored vehicles
- Modular architecture allows users to enhance performance of a broad range of suspension platforms



- GAWRs up to 14,000 lbs.
- Up to 21 inches of independent wheel travel – **BEST IN CLASS**
- Compact gearing to maximize suspension system performance
- Multiple spring and damping options available
  - Semi-active or active damping
  - Coil springs
  - Hydrostrut
  - Air spring
  - Air struts
- Suspensions custom designed to meet performance requirements
